Professional Summary

IT Support Professional with 5 years of intensive experience in enterprise environments, specializing in advanced technical support, incident escalation, and IT service management. Currently completing an NQF 7 Advanced Diploma in Application Development, exceeding the academic requirement for senior operations. I possess deep practical knowledge of ServiceNow, Active Directory, Office 365, and Mobile Device Management (MDM). I have a proven track record of acting as a technical escalation point, managing high-priority incidents, and driving continual service improvement through automation and proactive problem-solving. I am a disciplined, analytical thinker prepared to deliver exceptional client service within the BDO SA IT Operations team.

TECHNICAL COMPETENCIES

IT Service Management (ITSM) & Support

- Systems: ServiceNow, SysAid.
- Frameworks: ITIL 4 Foundation certified. Proficient in SLA management, incident categorization, and continual service improvement.
- Support: Advanced troubleshooting via TeamViewer, hardware/software diagnostics, and VIP user support.

Infrastructure, Cloud & Security

- Microsoft Ecosystem: Office 365 cloud administration, Windows 10/11, Active Directory (user accounts, access changes).
- Device & Network Management: Mobile Device Management (MDM), endpoint device security compliance, and AV/meeting room technical support.
- Enterprise Applications: Support for ERP, CRM, and bespoke internal workflows.

Leadership & Operational Performance

- Escalation Management: Acting as 2nd/3rd line escalation point and coordinating with external vendors.
- Process Improvement: Trend analysis, reporting, and integrating automation to reduce ticket backlog.

EDUCATION

Advanced Diploma: Application Development (In Progress) Rosebank College, *Current Qualification NQF Level 7*

- Enrolled as a final-year student.
- Core Modules: Application Development Security, Cloud Development (Azure, AWS), Enterprise Systems, and Research Methodology.

PROFESSIONAL EXPERIENCE

• **Developer at AFGRI Group Holdings** | *August 2023 to February 2026*

- Served as the primary escalation point for complex technical issues, resolving advanced incidents across 40 automated business workflows.
- Managed and prioritized incoming requests, ensuring timely resolution in strict alignment with business impact, urgency, and SLAs.
- Provided technical guidance and informal mentoring to internal users and junior support staff, promoting digital literacy and self-service.
- Monitored incident trends and analyzed support data to identify recurring system issues, implementing proactive fixes that reduced overall ticket volumes.
- Maintained professional communication with end users and stakeholders, providing clear updates on critical application and infrastructure outages.
- Managed endpoint security compliance and user access changes within Active Directory and MDM platforms.

• **IT Graduate – Application Support Datacentrix (Pty) Ltd** | **September 2022 – August 2023**

- Provided 1st and 2nd line support for enterprise users, utilizing ServiceNow to log, categorize, and document incidents accurately.
- Supported Office 365 environments, including Exchange Online, SharePoint, and Teams configuration.
- Executed rapid troubleshooting using TeamViewer to resolve desktop, software, and network connectivity issues for a large remote workforce.
- Assisted in producing daily and weekly operational statistics for the ICT department to track SLA adherence and backlog metrics.
- Collaborated with external vendors and 3rd line engineering teams for hardware repair expedition and complex infrastructure outages.

IT Lab Assistant Central University of Technology | *April 2021 – February 2022*

- Maintained physical and network security protocols for university computer laboratories.
- Assisted students and faculty with secure login procedures and basic technical troubleshooting.
